

Event: Madrid, 13-14 November 2019¹

TRENDINGTON: European Discussion Around Hottest Trends In Science And Technology

2 events under 1 name

Event 1: Final push around the 1st wave of trends, 13th of November 2019, at Madrid's regional Foundation for Universities and Knowledge (madri+d)

Address: Calle del Maestro Ángel Llorca, 6, 28003 Madrid

Description and objectives:

Closed workshop with a group of top experts in ICT, Health & Life Sciences, Environment & Climate Change, RRI, ethics of technology and Social Sciences, and architects, artists, CSOs, designers, and futurologists, with the objective to work into enriching, merging, selecting current list of 45 trends into the top 15 ones. Number of participants is limited so as to allow for focused discussion.

Expert Session Agenda:

DAY 2: 14/11/2019	
OPENING (14:00 – 14:25)	Welcome and general introduction to the PREFET project (PREFET Coordinator and by Madri+d) Expert Session objectives and approach
GROUP WORK PART I Exploration (14:25 – 15:15)	Introduction by a Group moderator from PREFET
	Initial division into 3 multi-stakeholder groups: researchers, RRI experts, artists, designers, futurologists, architects.
GROUP WORK PART II Opportunities (15:15 – 16:05)	Group work
	Groups shuffling and further group work
COFFEE BREAK (16:06 – 16:15)	Note: coffee, water, cookies and fruits will always be available
GROUP WORK PART III Challenges (16:15 – 17:05)	Groups shuffling and further group work
GROUP WORK PART IV Mesh-up (17:05 – 17:45)	Mesh-up session
COFFEE BREAK (17:45 – 18:00)	Note: During the break we will conduct event evaluation survey
TOP 15 FET TRENDS (18:00 – 18:20)	Presentation of top 15 FET trends selected by the experts
CLOSURE (18:20 – 18:30)	Wrap-up and finalise workshop and plans towards 14/11 presentations

¹ Note: The agenda is subject to change to adapt to our participants needs.

Event 2: Moving forwards, 14th of November 2019, at CDTI – Spanish Ministry of Science, Innovation and Universities

Open international event for young and senior researchers to:

- Get informed about coming FET calls,
- Learn about the outcomes from 13th and top 15 trends for future technologies,
- Network and co-create together with other players.

Top 15 trends will be presented by international expert, and networking and co-creation of potential ideas and visions around these trends will be actively motivated. The context for potential support within the European Framework Programme of R&I will also be described.

Brief agenda:

OPENING (09:00 - 10:15)	Welcome by Eva García Munti3n (PREFET Coordinator) and Spanish Ministry of Science, Innovation and Universities – Presentation of players and the agenda
	Future and Emerging Technologies (FET) Programme presented by the European Commission (EC)
	April & May 2020 FET Calls presented by the EC
DISCUSSION & INTERVIEW (10:15 – 11:30)	3 FET projects examples, chaired by Nicol3s Ojeda, Spanish National Contact Point (NCP) for FET and European Research Council (ERC)
	Beyond May 2020 – towards Pathfinder by the EC and Nicol3s Ojeda
	Claudia Lasillo from Agenzia per la Promozione della Ricerca Europea (APRE) and FETFX (tbc) – Support services in communication
COFFEE BREAK (11:30 - 12:00)	
TRENDS PRESENTATIONS (12:00 - 13:00)	Presentation of the top 15 technological trends in ICT; Biotechnology & Health Sciences; and Environment, Climate Change & Energy, by PREFET partners and international experts in exponential technologies, chaired by Eva Garc3a Munti3n.
CO-CREATION & NETWORKING SESSION PER AREA (13:00 – 14:30)	Dreaming of potential projects around top 15 technological trends and beyond: Co-creation and networking
CLOSURE - 14:30	Closure by Eva Garc3a Munti3n
NETWORKING LUNCH (14:30 - 15:30)	

Organisations of the session after the coffee break:

12:00 – 13:00 Presentation of the top 15 technological trends

What: Presentation of the results from 13/11/2019

How: We aim at engaging stakeholders taking part during 13/11 – How to work together in this will be planned during 13/11 itself, as we understand the results being generated.

This session will end with an explanation by PREFET Coordinator on how the next session will run.

13:00 – 14:30 Dreaming of potential projects around these trends: What could it be?

What: Co-creation and Networking

How:

- Three trend-focused multi-stakeholder groups (ICT; BIO & Health; and Environment & Energy) will be created, and each will aim at (pre)designing ideas around their trends.
- We will guide participants to join one of three groups / areas, that will be placed at different corners of the same room. They will be asked about this upon registration to the event, so that they make up their minds beforehand and people flow at this point is smoother.
- In each corner, one poster will be available with respective trends in the area, more or less with the following structure:

Area: xxxxxxxxxxxxxxxxxxxxxx		
Moderator & contact person: PREFET partner		
Experts: xxxxxxxxxxxxxxxxxxxxxx (from 13/11/2019)		
TREND	Seeds of ideas / visions	Interested people + contacts
Trend 1		
Trend 2		
Trend 3		
Trend 4		
Trend 5		

- Participants will be provided with markers, post-its, tape, etc. (part of the welcome kit upon registration to the event) to be able to interact with the poster and discuss and co-create together. Also to include themselves in the contact list for future action and support (i.e. IdeAcademy).

At different moments along the morning, participants will be suggested to pre-fill post-its with ideas they think of during previous presentations.

- One PREFET partner will act as moderator to dynamise the discussion and help making it as fruitful as possible. H/She will encourage participants to move around to the other groups, to look at results, contribute to discussion about specific trends related to their ideas... and this way increase multidisciplinary and maximize creativity.

14:30 CLOSURE

By PREFET Coordinator

14:45 - 15:45 NETWORKING LUNCH
